THE FOLLOWING IS TAKEN FROM the Baitimore Enquirer:

"A copy of "The Pottey-holder's Pocket Index," by the Spectator Company, of New York, showing the standing and condition of American life insurance companies for 1873, is before us. We take pleasure in noting that the Life Insurance Company of Virginia, which has recently established an agency in this civ, in its ratio of assets to Rabilities, is reported the best in the United States—of losses, among the smallest; of expenses, considering its age, expenses of establishment being included, the smallest; and in every other respect relatively its position is one to afford gratification to its managers and security to its patrons. The compiler rejects from the assets of this company over \$200,000 of secured bonds, considered by the company as safe and secure as they can be made, I am now prepared to effer extraordinary inducements in this line. ard BROWN COTTON-slightly damaged-at 9c.
